Goodweek

Goodweek is the safest AI Workspace

One secure place where your SMB clients use the best AI models, inside the tools they already work with. Easy for every employee, fully governed, and simple for you to deploy, manage and resell.

SHADOW AI

Goodweek is the answer to Shadow AI

Your clients' teams already use AI, often through personal accounts and with no control over company data. Goodweek gives them one approved workspace they actually prefer, so shadow AI disappears instead of being banned.

- **One approved workspace,** no personal accounts
- **Full visibility on usage** across all clients
- **Adopted, not imposed:** easier than side tools

01 Data governance & protection

Your clients' data stays their data

- Company data, prompts and files never used to train AI models
- Admins decide who uses Goodweek and what it can access
- GDPR compliant, SOC 2 Type I certified, isolated per client

02 Simple AI workflows for all

AI the whole team will actually use

- Built for non-technical teams: no prompt skills needed
- Ready-to-use Actions for emails, documents and summaries
- Teams share what works across the company

03 The best models for your clients

Every leading AI model, one workspace

- The best models on the market for SMBs, in one subscription
- Goodweek picks the right model for each task, automatically
- New models added as they come out

04 Business tools & Microsoft 365

Works where your clients already work

- Deep integration with Microsoft 365: email, files and calendar
- One-click deployment and sign-in with Entra ID (SSO)
- Connects to business tools like CRM, and more

05 Cost control

Predictable costs, no surprises

- One subscription replaces scattered AI tools
- Define the limits with your client regarding their actual usage
- Smart model selection: no premium power on simple taskst
